

Save Time and Money with **EasyLoad**

Expand your van and truck fleet capabilities

With the **EasyLoad** you can quickly load and unload all kinds of equipment or goods simply and safely into your van or truck.

Work Safe: No more heavy lifting and sliding of heavy loads by drivers and employees.

The EasyLoad is quick and simple to use.

Makes lifting loads and positioning them a breeze!

The EasyLoad stands out against all the other loading systems. Using the electrically powered extending boom you can easily lift loads and then position them in the loading area of the vehicle. The boom and winch are operated electrically with a single press of the button. The handy mobile control unit can be operated very simply with one hand and you don't have to rely on the facilities available at the pick up and delivery point.

Simple one hand mobile control

Heavy goods are easily positioned inside the van or truck

Simply hook the item up and EasyLoad does the rest

Optional Pallet Hook

Three models to choose from:

250kg	lift	-	1900mm	long
250kg	lift	-	2300mm	long
500kg	lift	-	2300mm	long

Each model is available in 12V or 24V

Simple installation

The EasyLoad onboard loading system consists of a high quality compact winch unit with an extendable boom. The stable light weight construction guarantees reliability and is maintenance free.

The installation is easy. The EasyLoad is mounted on a light weight self supporting frame which is positioned by attaching it to anchor points in the vehicle loading area.

Only two cables need to be connected to the power supply of the vehicle - no expensive modifications required. When vehicles are exchanged the EasyLoad can be simply uninstalled and and reinstalled into the new vehicle.

Full installation instructions are supplied with each unit.
